

1. Check to see if your question is already included in the Condo FAQs currently posted on the web at: [http://www.hud.gov/offices/hsg/sfh/condo/faqs\\_condo.pdf](http://www.hud.gov/offices/hsg/sfh/condo/faqs_condo.pdf).
2. To determine if a project is on the FHA Approved List or to obtain the FHA concentration please visit <https://entp.hud.gov/idapp/html/condlook.cfm> and input the condominium project name or the Condo ID. It is recommended that only the first few letters be entered to return a complete list. If the project is not listed it will require FHA approval.
3. FHA provides the FHA Concentration percentage information on the Condo List Screen. If the percentage is not identified or incorrect, provide documentation to the jurisdictional Homeownership Center so that the system can be updated. This information would include the first two pages of the appraisal or a letter from the HOA providing the number of units in the project.
4. What is the process for obtaining project approval? For documentation and processing requirements, please refer to ML 2009-46B and ML 2009-46A, which can be found at the following web site: <http://www.hud.gov/offices/adm/hudclips/letters/mortgagee/index.cfm>.
5. Requests and packages for HRAP processing must be submitted to the jurisdictional Homeownership Center. A Directory of FHA's Homeownership Centers and the States they serve can be found at: <http://www.hud.gov/offices/hsg/sfh/hoc/hsgohcs.cfm>.
